**PART IV: PAID STAFF**

Report figures as of the last day of the reporting year. Include all employees paid with library funds to do library work or to maintain the library building for the main library, all branches, bookmobiles, and other service outlets. All employees, whether or not they are certified by the Library of Michigan, are included. This should not include volunteers, since these figures may be used to determine average staff expenditures. To ensure comparable data, 40 hours per week has been set as the measure of full-time employment. The Full Time Equivalent (FTE) staff is automatically figured by adding the total number of hours worked by all employees in each category, then dividing the total staff hours by 40 and rounding to two decimal places.

**PART V: OPERATING INCOME**

Report income used for operating expenditures as defined below. DO NOT include capital income, contributions to endowments, income passed through to another agency, or funds unspent in the previous fiscal year. This section provides detail of local, state and federal income for your library's reporting year. Include federal, state, or other grants, except for grants for capital expenditures. It is important to keep accurate financial records for each reporting year and to be able to track local, state, and federal funds separately. Although there must be a realistic relationship between total operating income and total operating expenditures, the figures will probably not balance exactly. It is important to report accurately, since the library must be able to verify any financial information with audited figures. For purposes of this report, INCOME is defined as actual cash or a documented monetary transfer to the library fund. Do not include in-kind services, pledges and grants not received. Total Local Operating Income is used to meet the 3/10 mill match requirement for State Aid. If your library's total service area does not meet this state aid standard, revenues from the total legal service area and the individual contracted municipalities will be reviewed. For this reason, the Operating Income section provides entry for each municipality served by your library. When completing the form: - If your legal service area is comprised of more than one municipality (for example, a whole county, a school district of two or more municipalities), the legal area income can be reported with the first service area data. - If you cannot break down miscellaneous "other public local income" by municipality, report it all in the first Legal Service Area listed. - Only local income needs to be broken down by municipality.

Items which are packaged together as a unit, e.g. two compact disks, two films, or two videocassettes, and which are generally checked out as a unit, should be counted as one physical unit. **PART X: LIBRARY SERVICES**

If exact amount is unknown, enter an estimate. If an actual count of the data element is unavailable, determine an annual estimate by an actual count during a typical week in October and multiplying the count by 52. A "Typical week" is a time that is neither unusually busy nor unusually slow. Avoid holiday times, vacation periods for key staff, or days when unusual events are taking place in the community or the library. Choose a week in which the library is open its regular hours. Include seven consecutive calendar days, from Sunday through Saturday (or whenever the library is usually open). This technique can be used to estimate library visits, circulation transactions, reference transactions, interlibrary loans and number of users of electronic resources.

**C. Program Attendance**

A program is any library planned event which introduces the group attending to any of the broad range of library services or activities or which directly provides information to participants. Programs may cover use of the library, library services, or library tours. Programs may also provide cultural, recreational, or educational information, often designed to meet a specific social need. Examples of these types of programs include film showings, lectures, story hours, literacy, English as a second language, citizenship classes, and book discussions.

Count all programs, whether held on- or off-site, that are sponsored or co-sponsored by the library. Exclude programs sponsored by other groups that use library facilities. If programs are offered as a series, count each program in the series. For example, a film series offered once a week for eight weeks should be counted as eight programs. Note: Exclude library activities delivered on a one-to-one basis, rather than to a group, such as one-to-one literacy tutoring, services to homebound, resume writing assistance, homework assistance, and mentoring activities.
